## CORRELATING WITH THE ECLIPTIC PATTERNS FROM 2012-2020

The purpose of this chart /illustration is to show a possible association of *Ecliptic Patterns* to the speculative stages of the Biblical *Tribulation Period* spoken from the Book of Daniel & Revelation. This will be a fusion of astronomical facts with eschatological suppositions that are purely hypothetical. It appears that the *Ecliptic pattern* functions as a sequence of time or a 'time-clock' that is directly a function of *phi*. Several conjugation of the Eclipses will be analyzed in reference to *phi* taken from several key Ecliptic dates. Perhaps given such day count clues from Daniel & Revelation, the 'Time of Jacob's Troubles' as a part or a whole of the Tribulation Make-up could be ascertained by such a 'time-clock'. Scripture gives us clues as to some attributes of the *Tribulation Period*. The Day counts are either a **1)** full 7 Prophetic time-span of 2520 Days, **2)** a 3.5 Prophetic time-span of 1260 Days or **3)** an in-between of 2300 Days from Daniel 8:13. There are also 2 other day count references **4)** of 30 Days & **5)** a 45 Days once the Messiah Returns to Reign from Jerusalem that will initiate the True Golden Age of Peace & prosperity for a 1000 Years. For illustration purposes only, no predictions are made.

### ECLIPTIC TIME

For the purposes of this illustration, the Solar Eclipses will be placed on a time-line. Only the TETRAD & TRIAD Total Blood Moons will be shown to highlight the association of time intervals between the Solar & Lunar Eclipses.

A series of *phi* proportions will then be extrapolated from the Solar eclipse dates to ascertain the end result dates. Possibly these correlation could be clues to determine which day count is corresponding.

The 3rd Temple may begin contraction at 1st Moon of Tetrad. It is speculated that it would 18 MONTHS for the purification & completion. This would take you to Rosh HaShana 2015 that could perhaps be the dedication of the Temple for service there-

### THE BEGINNING ?

**18 Months**  
Required to complete 3rd Temple?

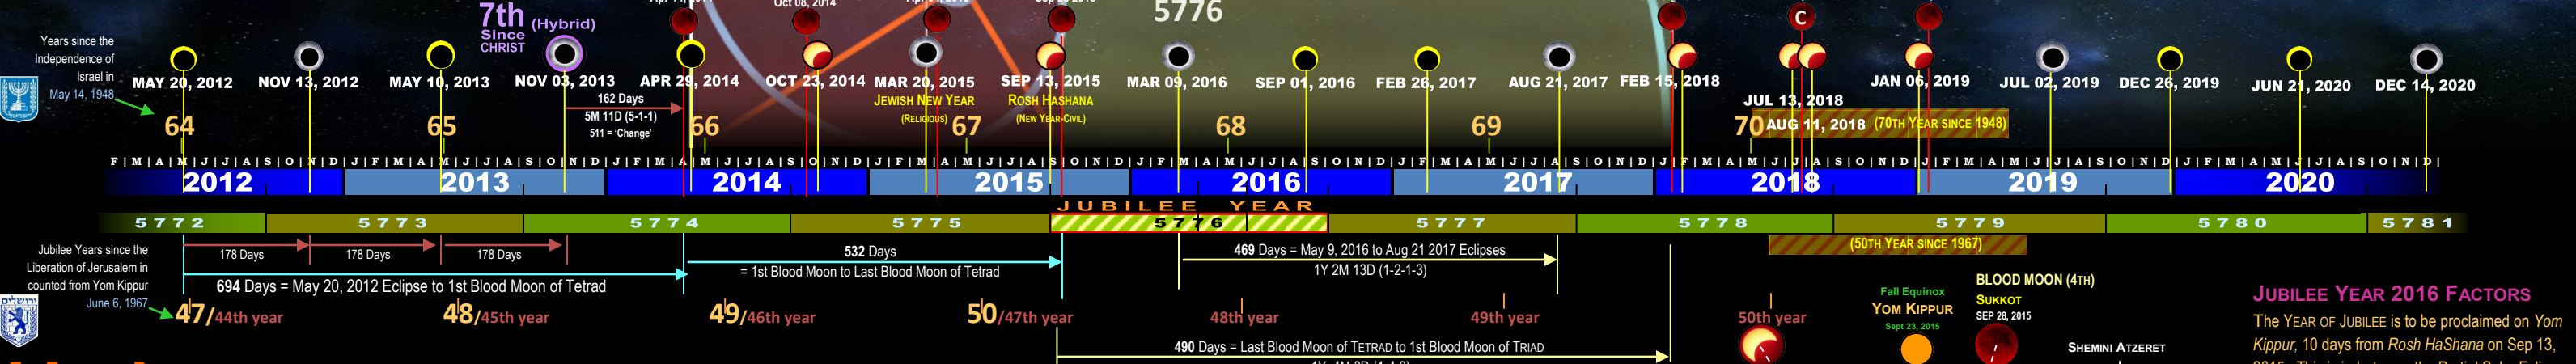

### Dedication of 3rd Temple?

Rosh HaShana 2015 + 1260 or 42 months = March 26, 2019 end of 70th Year since 1948

### THE MIDDLE ?

#### 2018? IN THE 'MIDTH' OR OF WHAT COUNT?

We are given a clue in Scripture that regardless of the Day-Count, a 'Midst' or middle of a time period is associated with a command to have the Daily Sacrifices cease. Will it be the 1260, 2300 or 2530 Day Count? The TRIBULATION will have an 'Event' that perhaps will mark the 'Midst' or close thereof of the ceasing of the Daily Sacrifices. This assertion alone speaks that **1)** a Priestly Order in operation, **2)** a Sacrificial Order is in place, **3)** a rebuilt Temple, although not necessary for sacrifices is erected. A political & religious Authority that -that being the Anti-Christ supersedes the Religious rite of Israel to conduct such endeavors, even above the SANHEDRIN that is in existence since 2004. If we take the pattern of the Moedim Fests being 1st Passover, 2nd Pentecost, 3rd Tabernacles, then perhaps a future Pentecost time will correspond to the 'Midst' that could be the key to know the day count. The Blood Moon of July 27, 2018 is a Central or 'midst' exactly 7 years to the one in 2011.

### THE TETRAD IN RELATION TO φ

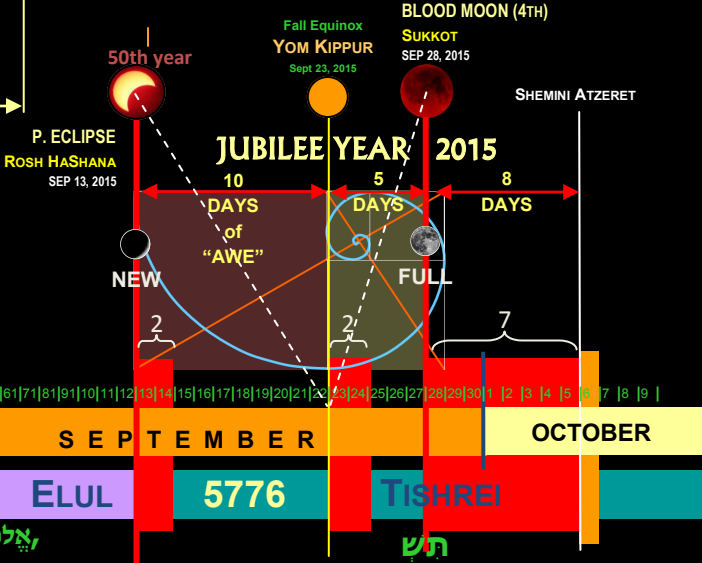

There appears to be a series of *phi* associations to the Eclipse Pattern, given the timeline presented. One prominent reference point that is highlighted above for these illustrations will be that of the commencement of the TETRAD. Starting from the Apr 29, 2014 1st Annular Eclipse within the Tetra, when you factor in the *phi* proportions spanning the entire duration of the TETRAD -to finish on Sep 28, 2015, you end up with the start of the 2nd & last TRIAD of Blood Moons that bracket the TETRAD, 490 days later on Jan 31, 2018. The Apr 29, 2014 Annular Eclipse is precisely in *phi* ratio to the Mar 20, 2015 Total Eclipse & the 4th & last Blood Moon of the TETRAD on Sep 28, 2015. The 1st TRIAD started in Dec 2010. This same principle of incorporating the *phi* proportions will be factored throughout the timeline from 2012 to 2020 to see if there are corresponding dates & day-counts that could be significant & perhaps lend a clue as to what count & from where the 1260, 2300, and/or 1150 prophetic count could be referenced from.

### TIME OF JACOB'S TROUBLES

JACOB'S TROUBLES refers to an intense period yet in the future of persecution, death & destruction for the Jewish People right before the Messiah is promised to come to deliver them & reign. It is a time of 'wrath' -of LORD's judgment on the unbelieving world and His discipline of Israel during this time. It is used as a Metaphor to picture Israel going through the pains of childbirth -a time of fear & pain. It is a time of purification & testing/discipline as the LORD will use the surrounding Nations in the End Times to do this. The LORD says He will destroy the Nations who will come upon Israel; notably the yet to be fulfilled Psalm 83 War, Isaiah 17 Event, & the Gog-Magog Invasion. Jesus similarly described this 'TRIBULATION' period in Matt 24:6-8, stating that the appearance of false christs, wars and rumors of wars, famines, & earthquakes were to be "the beginning of birth pains." Perhaps the Tetrad is the indicator of such a time. If any indication of what will happen to Israel from prior Tetrads, it will not be good as Blood Moons are a bad 'omen' for the Jewish Nation.

### JUBILEE YEAR 2016 FACTORS

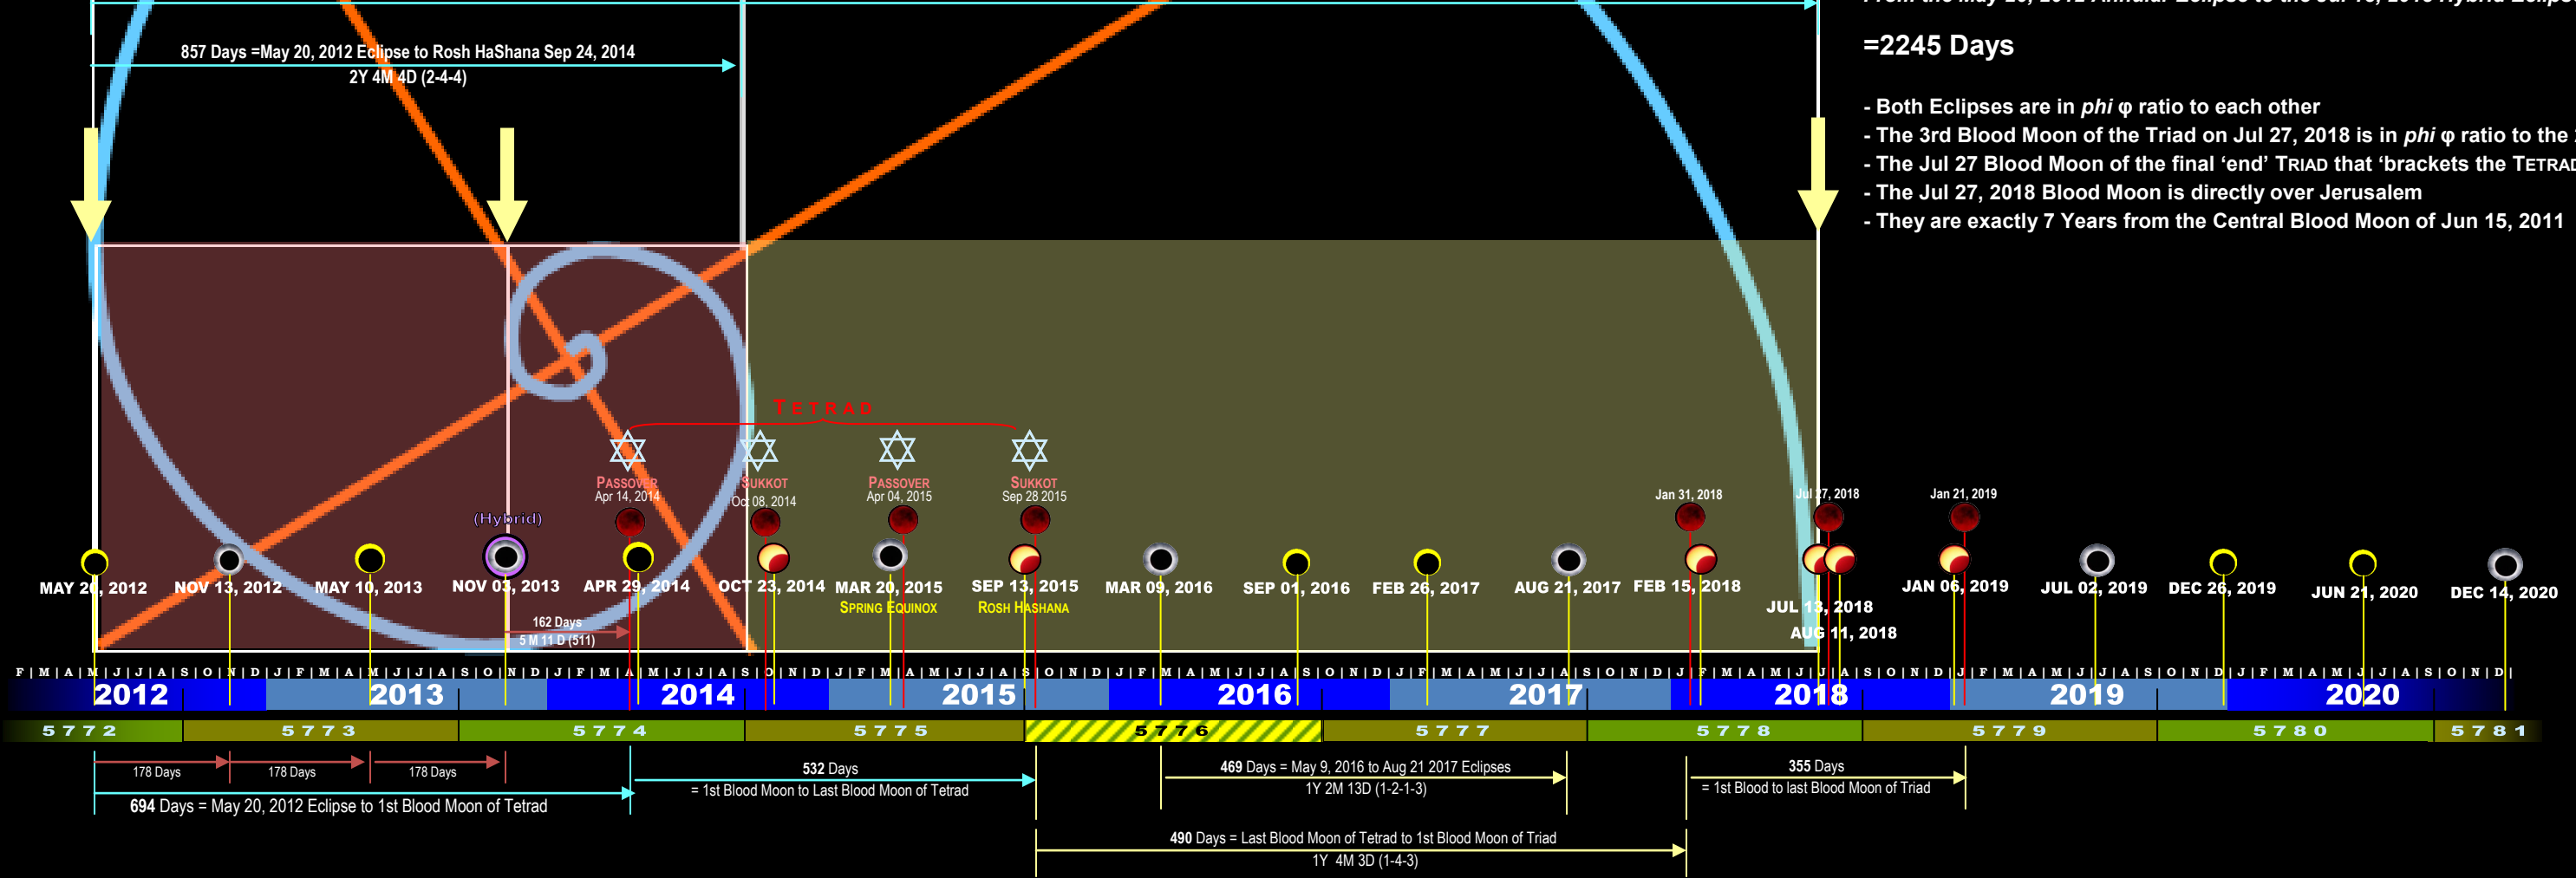

The YEAR OF JUBILEE is to be proclaimed on *Yom Kippur*, 10 days from *Rosh HaShana* on Sep 13, 2015. This is in-between the Partial Solar Eclipse of Sep 13 & the last Blood Moon of the TETRAD on Sep 28, 2015.

- Jubilee Year is in-between 2 Eclipses.
- Jubilee Year is on Yom Kippur, Eve of Sep 23, 2015.
- Sep 13, 2015 Partial Eclipse & Sep 28, 2015 last Blood Moon of Tetrad.
- Jubilee Year on the Fall Equinox Sept 23, 2015.
- Jubilee Year is in the Jewish Year of 5776, a factor of 1776 'Year of Light.'
- It is the 240th Year since 1776.
- From Partial Eclipse on Sep 13 to 4th Blood Moon of Tetrad is nearly in phi ratio to Yom Kippur on the 22nd, eve of 23rd.

### IN THE MIDST

### 2300 Days?

If the pattern of the Menorah is used to have the Center Stem be the 'midst' as Christ is referred to in Revelation, then when the Anti-Christ ceased the Daily Sacrifices in the 'Midst', perhaps it also alludes to the center Feast, that being of Pentecost. Perhaps it will be at a certain year on Pentecost that this is referring to? If this were to be the case, one could project 1260 or 42 months from that to ascertain the commencement of the 1st half of the Tribulation or start.

### Scenario I

### Scenario II

### THOSE DAYS BE SHORTENED?

If the 2300 from Daniel 8:13 is indeed the duration of the entire Tribulation, then from the 'Midst', one can project out the 2300 Day count and see that it ends on precisely the Total Solar Eclipse after the Triad that ends the "Bracket" of the Tetrad of 2014-2015.

### THE MENORAH MODEL

IF one were to incorporate the 9 stem candlestick menorah on the timeline, you would have to one side the 4 Blood Moon Eclipses each for 1 branch. The Center Stem would be on Pentecost Jun 12, 2016 as interpreted to be the 'Midst' of the Daily Sacrifices. This is ascertained by deducing that the Feast of Pentecost is the middle of the 3 Moedim required Feasts of the LORD; having Passover as the first in the Spring and Sukkot, or Tabernacles in the Winter.

The other side of the Menorah 4 Branches correspond to the Annular & Total Solar Eclipses plus the 1st & Center Blood Bull's Eye Moon of the Triad. They mirror the Tetrad almost precisely if indeed the 'Midst' is alluding to the Feast of Pentecost on 2016 in which the Daily Sacrifices are to commanded to 'cease'. The question here will be what count from this point is to be used? The 1260 or the 1150, which is half of the 2300 Day Count from Daniel 8.
